About me

Junior developer and UI/UX designer in training, with knowledge in web development, API integration, and the design of modern and responsive interfaces. Experience in full-stack development, including Google account authentication, dynamic data management, and frontend/backend integration. I stand out for being a quick learner, my creativity, technological adaptability, and my ability to work independently in digital environments.

WORK EXPERIENCE

Jun 2025 - Sep 2025

UI/UX Developer — Starsisa

- Design of modern and functional interfaces.
- Visual organization of digital content.
- Optimization of user experience in applications and interfaces.

Jan 2020 - Dec 2024
